- Adaptability

PROFESSIONAL EXPERIENCE

Survey Management System For MoPD (Intern)   **July 2023 - Dec 2024**

I collaborated with a team on the development of the Survey Management System for the Ministry of Plan and Development (MoPD). Together, we worked on creating a system that facilitates the management of surveys conducted by the ministry. Our teamwork ensured that the system was developed effectively and met the requirements of the project.

PERSONAL PROJECTS

Et Travel   **July 2021 - Dec 2021**

Et travel is a website project , its gives basic tour and travel functions. I did this project when I was in 2'nd year in my collage. It was developed using HTML/CSS and bootstrap for the frontend part and the backend was developed using php.

Movie Clon Using API   **Dec 2021 - Feb 2022**

This is a website that was done for my Django final project it allows a company to use its vehicles effectively by assigning them to employees only when they are needed. It was developed using HTML/CSS and JS for the frontend and Django for backend.

Vehicle Management System   **Aug 2023 - Sep 2023**

This is a Movie clone site using API called IMDB and using java script the functionality's are searching , getting description watching trailers. This Project is done by HTML/CSS and java script.
